CRITERION I – CURRICULAR ASPECTS	

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Our college has formulated an academic calendar for each session to ensure the efficient execution and functioning of all curriculum-related activities within the institution. To facilitate this, various committees are established at the outset of each session to meticulously address curriculum aspects and activities for that particular session. These curriculum committees maintain regular communication with departmental In-Charge personnel and members to guarantee the comprehensive incorporation of curriculum components in all departments. Subsequently, all department heads prepare and display a timetable in accordance with the academic calendar, which is prominently posted on the Notice Board. The Principal periodically assesses the progress of the syllabus according to the timetable and the academic calendar to ensure its completion by the end of the session. The curriculum committees have made concerted efforts to involve all instructors in various activities outlined in the college's academic calendar. Additionally, the Institutional Quality Assurance Cell (IQAC) has actively promoted and ensured the utilization of state-of-theart ICT tools, smart classrooms, and digital teaching aids by all educators during their lectures and interactions with students in the classroom. Furthermore, the curriculum committee has compiled a comprehensive report encompassing all college-level events to evaluate the progress and accomplishments of students throughout the session. As the session concludes, the IQAC conducts a thorough review of all departments, collecting data related to student performance and achievements in each department. The Principal meticulously examines all data and records concerning student progress, performance, and achievements, ensuring compliance with the requirements of the All India Survey in Higher Education (AISHE) by the end of the session.

Students		Yes			
Teachers		Yes			
Employers		Yes			
Alumni		Yes			
Parents		Yes			
1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)					
Feedback Obtained					

Recognizing that development is an ongoing process, the college consistently seeks feedback from students enrolled in the annual system at regular intervals throughout the year. Students inevitably hold opinions regarding the college, teaching methods, and the mode of classes they attend, all of which have a direct impact on their behavior and future. In an effort to nurture the holistic development of students and maintain a harmonious relationship between students and teachers, feedback forms are also solicited from stakeholders to contribute to the overall betterment of the college. The Institutional Quality Assurance Cell (IQAC) committee collects feedback forms from teachers, which are subsequently analyzed to identify both positive and negative aspects. This analysis informs the implementation of appropriate measures aimed at creating an improved teaching and training environment for both students and faculty. The college has also established a grievance redress committee dedicated to addressing students concerns. To promote quality and the advancement of students, the college seeks feedback regarding their general sentiments about the college and its environment. The IQAC-recommended proforma is distributed among students, and the data collected is analyzed and discussed in collaboration with college staff. This collaborative effort results in the formulation of important strategies to enhance the overall effectiveness of the teaching and learning process. The feedback from most students indicates satisfaction with the curriculum coverage and the teaching methods employed by faculty. Students also acknowledge that teachers conduct fair internal evaluations within the college. The feedback received from students further reflects their agreement that the college expends significant efforts in involving them in mentoring, reviewing, and continually enhancing the quality of the teaching and learning process.

being of their assigned students. They offer guidance to students who encounter unforeseen challenges during their academic journey. Teachers are actively involved in counseling and guiding students to achieve physical and mental well-being and to promote awareness of health and womens legal rights. They also help their mentees explore a range of career possibilities by providing information about various courses and available opportunities in various fields. Mentoring plays a pivotal role in enhancing academic performance, reducing unexcused absences and tardiness, improving relationships with parents, and lowering the dropout rate. Mentors provide valuable information to students regarding college preparatory courses, financial aid, and the college admissions process. Whether students enter college with a clear career path or with an intent to explore their options, mentors help them identify and cultivate their interests and deepest passions. Mentors always consider students best interests, abilities, skills, and talents, providing them with the influence and guidance they require to reach their full potential. Mentoring is an invaluable strategy that provides students with both emotional and instrumental support necessary to attain a college degree. Beyond the confines of the classroom and lab, mentors offer students guidance in making career and life choices. Transitionary periods can be particularly challenging for individuals who lack a clear understanding of the environment or situation theyre moving into. Mentors, through the provision of information, guidance, and encouragement, fulfill a vital role in nurturing students aspirations for college. Additionally, mentoring enhances students sense of connection and engagement on campus, ultimately leading to improved student outcomes. In addition to introducing students to professionals and opportunities in their chosen field, mentors acquaint students with new resources and organizations. The most valuable aspect of mentorship lies in its uniqueness, as each partnership is tailored to a students individual circumstances, field of study, and career objectives.

2.5.2 - Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The internal assessment of learners is a fundamental component of the contemporary approach to continuous and comprehensive evaluation. Regularly assessing learners not only keeps them engaged in academic activities but also

provides a solid evidentiary foundation for teachers to implement diagnostic and remedial measures for the improvement of student learning. The institution conducts internal assessments of students through various means with the utmost transparency. At the commencement of each session, every department organizes an orientation program to familiarize students with the evaluation process, including unit tests, mid-term tests, practical examinations, viva-voce, project work, and university examinations. The college is affiliated with Chhatrapati Shahuji Maharaj University, Kanpur, and strictly adheres to the guidelines and instructions issued by the university for internal assessments. Assignments are distributed in each subject, and their evaluation considers content quality, presentation, reference materials, and more. The faculty members teaching a particular subject prepare the question papers for mid-term examinations following the universitys prescribed format. The examination schedule is promptly communicated to students both in the classroom and through notice boards. To ensure the integrity of both internal and external examinations, CCTV cameras are utilized to monitor the examination halls and prevent any unauthorized use of materials during the tests. Each department maintains an internal examination committee to assist students with issues related to their internal examination marks or absenteeism. After the evaluation of unit tests and mid-term tests, answer sheets are shared with students, allowing them to assess their performance. If any corrections or clarifications are necessary, students can discuss them with the respective teachers. To assess classroom and seminar presentations, a schedule for student presentations is created and communicated to the students. Students present their reports through methods such as PowerPoint presentations or oral presentations, which are then evaluated based on predetermined criteria set by the respective faculty members. In science and educational psychology fields, practical files are thoroughly evaluated.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

A meticulously planned academic calendar plays a pivotal role in ensuring the effective execution of academic activities within the college. To facilitate this, each of the three departments has established internal curriculum committees. These committees, under the guidance of department heads, compile comprehensive documentation of curricular aspects and associated activities for the session, ultimately leading to the development of academic calendars. Following a review by the principal, these academic calendars are prominently displayed on the notice board and within the staff room. The principal consistently monitors the progress of the academic session in alignment with the academic calendar, ensuring that all activities are conducted as scheduled. The distribution of classes and other responsibilities among faculty members is carried out with a high level of transparency. Furthermore, each curricular committee conducts regular evaluations of academic progress and implements necessary modifications in response to unforeseen circumstances. The Institutional Quality Assurance Cell (IQAC) actively promotes the utilization of ICT tools, digital learning resources, and smart classrooms by teachers in their teaching and learning processes. IQAC also endeavors to resolve any impediments that teachers may encounter when applying ICT tools. Additionally, IQAC collects data concerning the performance and progress of students from each department and maintains an archive of this information. All the data and records related to student progress are subjected to a thorough examination by the principal, and they are diligently compiled in accordance with the requirements of the All India Survey in Higher Education (AISHE) at the conclusion of the session.

The college strictly adheres to government regulations when it comes to obtaining and managing funds for infrastructure maintenance and the acquisition of new equipment. Various departments within the college submit funding proposals to the Principal. These proposals are then forwarded to the colleges purchase committee by the Principal for review. Funds are disbursed only after receiving the Principals approval. Other tasks, such as repairing, construction, maintenance, and the upkeep of academic buildings and other physical infrastructure, including furniture and electrical appliances, are carried out by individuals appointed by the government of Uttar Pradesh. When it comes to equipment procurement, the college follows a competitive quotationbased process. The purchase committee solicits quotations from multiple vendors

in the market, and a minimum of three quotations is required to make a purchase. After receiving these quotations, the committee thoroughly evaluates them and selects the one with the lowest price while ensuring no compromise in quality. Purchases are only made after receiving approval from the appropriate authority, and records of all equipment are maintained in the stock register. The college receives grants from the Higher Education Department in Prayagraj, Uttar Pradesh, under non-plan categories.

5.3.2 – Activity of Student Council & amp; representation of students on academic & amp; administrative bodies/committees of the institution (maximum 500 words)

At the departmental level within the college, a departmental council is established to foster the holistic development of students and cultivate their leadership skills. Within this council, students from the department elect a president, secretary, and class representative. These council members serve as student representatives throughout the year and communicate students concerns to the principal through the department head. The departmental level hosts various programs aimed at identifying and nurturing student talent. These initiatives include organizing competitions that encourage creativity. At the end of the academic year, students who have excelled are recognized and rewarded by the college. Additionally, students have opportunities for representation in various college committees. In the colleges annual magazine, named Asha, students are actively involved in the selection of articles, proofreading, and the finalization of these tasks, contributing to their editorial and publishing experience.

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

No

5.4.2 - No. of enrolled Alumni:

5.4.3 - Alumni contribution during the year (in Rupees) :

5.4.4 - Meetings/activities organized by Alumni Association :

between the institution and its former students. It serves as a bridge connecting past and present, nurturing a sense of belonging and loyalty. The working of an alumni association encompasses various activities and initiatives aimed at engaging and benefiting both the alumni and the institution. The composition of an alumni association typically consists of Principal, Assistant professors and alumni volunteers who represent different batches. These volunteers work closely with the institutions administration to plan and execute events, initiatives, and programs. The association often has a president, vice-president, treasurer, secretary, and other key positions. One of the primary functions of an alumni association is to facilitate networking opportunities. Through events such as reunions, various events and workshops, former students can reconnect with old friends, make new professional connections, and share their experiences. This networking leads to collaborations, mentorships, and even employment opportunities. Another important aspect of an alumni associations working is fundraising. Alumni often contribute financially to their alma mater through donations, sponsorships, or endowments. These funds can be used to support scholarships, research initiatives, infrastructure development, and other projects that enhance the institutions reputation and resources. Career support is another significant function of alumni associations. They may offer career counseling, job placement services, and skill development workshops to help recent graduates

transition into the professional world. Alumni who have achieved success in their fields can serve as role models and mentors, guiding current students on their career paths. Community engagement is also a vital component. Many alumni associations engage in social responsibility projects, such as organizing blood drives, conducting awareness campaigns, or participating in environmental initiatives. These activities not only give back to the community but also reinforce the values and ethos of the institution. Number of meeting Conducted

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The college employs a decentralized approach to participative management, wherein various committees are established to make decisions on a range of issues related to work. These committees comprised of a convener and members, collectively deliberate and make decisions. Approval for these decisions is obtained from the head of the institution, ensuring that no single individual makes unilateral choices. The leadership actively promotes student engagement in both co-curricular and extra-curricular activities. Similarly, faculty members are encouraged to pursue quality publications and participate in seminars, symposiums, and other events at the national and international levels. Furthermore, the leadership supports faculty members in attending induction, refresher, short-term courses, and various other faculty development programs within the institute. The college has developed such ecosystem which promotes the leadership quality development among the employees. The Following activities may be considered as the example of decentralization and participative management: 1. Sports Meet: The college conducts sports meet annually with the help of institutional family. The top administrative leadership in consultation with all the stakeholders. This has helped in developing the administrative and leadership qualities among the staff as well as the student. 2. Departmental Student Council: A department council of students is constituted to conduct the different competitions as well as maintain the discipline in the department. Theses councils also performs general maintenance related monitoring and new requirements. These councils also perform the training of the new comer students in accordance with rules regulations and decorum of particular department.

6.1.2 – Does the institution have a Management Information System (MIS)?

No

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	Maharana Pratap Government Post Graduate College in Hardoi is affiliated with C.S.J.M. University, Kanpur. The college adheres to the syllabus formulated by the university, aiming to go beyond theoretical knowledge and focus on fostering practical skills essential for personal and professional advancement.
Teaching and Learning	Students are urged to cultivate a questioning mindset, and an interactive

	<pre>mode of teaching is employed to invigorate the classroom environment. Remedial classes and tutorials are provided to assist those who may need additional support, while department teachers organize presentations, seminars, and tests to enhance the learning experience.</pre>
Examination and Evaluation	The university conducts annual examinations in accordance with its academic calendar. The college is tasked with ensuring the proper administration of these exams under surveillance. Additionally, the college serves as the nodal center for various self-financed colleges, overseeing and monitoring their activities. Central evaluation, involving the participation of college teachers, is conducted by the university to assess the performance of these institutions.
Research and Development	The college is promoting the research and development activities among the students and teachers. various labs have been setup in the college to perform the research and development task.
Library, ICT and Physical Infrastructure / Instrumentation	The college has automated library to ensure good infrastructure of teaching and learning in the college. The students also get books at department level also
Human Resource Management	The senior faculty members are given priority in heading the committees constituted for various works.

6.2.2 - Implementation of e-governance in areas of operations:

E-governace area	Details				
Planning and Development	The college disburses salaries and other dues through the e-Kuber or Koshagar portal, overseen by the UP government. Employee service records are maintained using the Manav Sampada Portal. Academic records for both teachers and students are efficiently managed through the Academic Bank for College and University Students in Uttar Pradesh (ABACUS-UP).				
Administration	The administration of the institution is strictly done in accordance with the Uttar Pradesh Government Rules.				
Finance and Accounts	As a government institution, students pay nominal fees, while the salaries of teachers and other staff are provided by the State Government. A portion of				

	the fees collected from students is also deposited into the state treasury.
Student Admission and Support	Qualified students apply through the universitys online portal and obtain a WRL number from CSJM University, Kanpur. Subsequently, the student submits their application to the college, referencing the WRL number and adhering to the reservation rules outlined by the Government of Uttar Pradesh. The college compiles an admission list based on merit, and successful candidates are then granted admission.
Examination	The university has developed ERP (Enterprise Resource Planning) software, which facilitates all tasks associated with examinations.

6.3 – Faculty Empowerment Strategies

Suggestions college playg integrated in li of students hol are warmly w	The college regularly arranges meetings of the Parent-Teacher Association. Suggestions pertaining to enhancements in the connectivity of roads, the college playground, and career guidance activities are actively sought and integrated in line with the mutual consensus of the PTA. The input from parents of students holds significant value for the institutions development. Parents are warmly welcomed to participate in the colleges initiatives at their convenience, recognizing their vital role in the progress of both the college and the students.								
6.5.3 – Development pr	ogrammes for s	upport	staff (at least three)						
	The following support is provided to the staff of the college- 1. Group Insurance Scheme 2. Contribution in National Pension Scheme 3. Pension after the retirement								
6.5.4 – Post Accreditati	on initiative(s) (r	mention	at least three)						
6.5.4 - Post Accreditation initiative(s) (mention at least three) Following the initial accreditation cycle, IQAC (Internal Quality Assurance Cell) was established in July 2015, and the college commenced attaining its goals, vision, and mission in accordance with the established norms of NAAC (National Assessment and Accreditation Council). Subsequent to the first cycle, student mentoring for comprehensive and harmonious development was introduced, and the college entered into MOUs with other institutions to enhance students holistic development. Various improvements were made in student-related facilities, including upgrades to water and sanitation facilities, as well as enhancements to the girls common room.

7.1.7 – Initiativ	7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)									

Several initiatives are taken by different departments of the institutions for the ecological protection and conservation of the institution. Institution has used led less (Pb.) colours paint for painting of premises and furniture. This initiative reduces exposure of Pb. of staff and students. Institution has taken protection measures for the safety of the students with hazardous chemicals. In this regard we have developed volunteers from different departments for awareness. Institution has developed spices garden for cultivation of Indian spices. We organize different awareness program for medicinal use of spices in our institution for staff members and students. We have taken several environmental protection measure for sustainable development of environment in institution i.e. plantation drive, green campus drive, low entropy drive for sustainable development of our institution.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best Practice 1: Empowering Women Through Holistic Education 1. Title of the Practice: Empowering Women Through Comprehensive Education 2. Objectives of the Practice: • Establishing a safe and inclusive environment for girls. • Cultivating a culture where girls can recognize real-world challenges and learn effective ways to overcome them. • Boosting self-esteem and confidence among female students. • Fostering essential qualities such as compassion for humanity and love for nature. • Encouraging excellence in academics, sports, and co-curricular activities. • Developing value-oriented leadership and enhancing the personality of female students. • Creating a conducive counselling environment for females. 3. Context: Women, particularly in rural areas, have historically faced marginalization in the education sector. Despite efforts to reduce the gender gap, significant barriers to girls education persist. 4. Practice: The college is committed to the empowerment of women by encouraging holistic development. Through cutting-edge education, cultural and spiritual rejuvenation, and holistic methodologies, the institution empowers female students physically, mentally, and culturally. Various initiatives, including projects, seminars, and competitions, are undertaken to enhance creativity and equip girls to face real-world challenges. Professional skills and career guidance are provided to prepare them for the global market. The institutes efforts have proven successful in achieving the goal of womens empowerment. 5. Evidence of Success: Remarkable academic results and active participation in various platforms demonstrate the success of the practice. Female students excel in academics, sports, and co-curricular activities, earning recognition at college, district, and state levels. 6. Problems Encountered and Resources Required: Cultural norms and socio-economic factors pose barriers to womens education. Financial support, in the form of scholarships and concessions, is needed to address these challenges effectively. Additional government funding would help in providing necessary support. Best Practice 2: Green Campus, Clean Campus 1. Title of the Practice: Sustainable Campus Initiative 2. Objectives of the Practice: • Cultivate a culture of eco-friendly practices for an environmentally sustainable campus. • Establish a plastic-free and low-waste campus that conserves energy and protects biodiversity. • Achieve self-sustainability in power, water, and cleanliness. • Encourage collective efforts from students, staff, and the community. 3. Context: The college, spread over 11.82 acres, includes playgrounds, lawns, and gardens that contribute to biodiversity. The institution recognizes the urgency of addressing environmental degradation in the 21st century. 4. Practice: The institute annually plants new trees, strictly prohibits tree cutting, and maintains a botanical garden. The campus is free of single-use plastic and tobacco, utilizing energy-efficient appliances and solar energy. Rainwater harvesting and reusing reverse osmosis wastewater are integral practices. Programs on national resource management and

green technology engage various stakeholders and raise environmental awareness.
5. Evidence of Success: The campus employs solar power for various purposes and conducts annual tree plantation drives. Approximately 350 trees, 1000 shrubs, and 1.5 acres of grass cover contribute to a sustainable environment. 6. Problems Encountered and Resources Required: Challenges in solar power maintenance, including technical faults, have affected efficiency. Adequate resources and technical support are required to address these issues and maintain the success of the sustainable practices. Taking

Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Maharana Pratap Government P.G College, Hardoi, is dedicated to providing higher education within a disciplined atmosphere, aiming to nurture skilled individuals with elevated moral and spiritual values for the betterment and service of society as a whole. The college is committed to delivering holistic education, fostering the social, emotional, spiritual, and cultural development of responsible citizens. The college has consistently implemented best practices since its inception: 1. Clear and Common Focus: • The college emphasizes a shared focus among the principal, teachers, staff, students, and parents, centered on the belief that all students can learn and improve. • Regular interactions, including teacher-student and teacher-parent meetings, manifest this commitment. 2. High Standards and Expectations: • The teaching staff upholds the belief that every student can learn and achieve new levels of understanding. • Dedication is shown in helping students face lifes challenges through an ambitious and rigorous course of study, ensuring high standards across all learning platforms. 3. Strong Leadership: • The institution is dedicated to robust leadership that enhances the skills, knowledge, and motivation of its members, fostering a culture of high expectations and skillsbased knowledge. • A collaborative atmosphere is nurtured between the college and the community, with a focus on improving leadership, learning, and overall student performance. 4. Supportive, Personalized, and Relevant Learning: • The college provides a supportive learning environment that cultivates positive and personalized relationships for all students, engaging them in rigorous activities and learning experiences. 5. Parent/Community Involvement: • Parents and community members actively contribute to developing, understanding, and supporting core academic, social, and personal goals. • Programs such as the National Cadet Corps (NCC) and National Service Scheme (NSS) camps facilitate two-way learning between students and community members. 6. Monitoring, Accountability, and Assessment: • Continuous adjustments in teaching and learning are made based on data collected through various valid and reliable methods, indicating student progress and needs. • Assessment results are interpreted and applied to enhance individual student performance and the instructional program, with regular feedback from teachers and students. 7. Curriculum and Instruction: • The college follows an aligned curriculum as per university standards, with core learning expectations to elevate the performance of all students. • Teachers employ research-based teaching and learning strategies, actively involving students in inquiry, in-depth learning, and performance assessments.

8.Future Plans of Actions for Next Academic Year

In line with our Vision and Mission, Maharana Pratap Govt. P.G. College strive to make significant contribution to the nation building cater to the needs of the society by creating research oriented intellectual and skilled oriented manpower who would initiate, nourish and perpetuates values of humanity, conscious coexistence achievement of excellence and nation-building. Thus, Maharana Pratap Govt. P.G. College, has the following future-plan of action: - 1. Implementation of ICT/e-governance in all the administrative academic section to make the campus fully automated. 2. Promoting Industrial and institutional corporate collaboration for internships, placement support, alumni outreach, student exchange, faculty exchange and resource mobilization. 3. To upgrade the examination evaluation system of the college through regular online exams, MCQ's based exams, Mock Test with the purpose of making the examination system more and more transparent and objective. 4. To train and prepare students for competitive examinations and facing group discussions and interviews for placement in the government, corporate sector and multi-national companies. 5. To ensure a plastic free, paper less campus make the campus eco-friendly. 6. To ensure an ecofriendly campus with proper hygiene and cleanliness as part of Swachh Bharat Abhiyan. 7. As a part of outreach activities and responsibilities of the college towards society, educate rural areas regarding hygiene and sanitization. 8. To work towards Digital Inclusion by providing rural education as a part of our outreach programme. 9. Strengthening the Alumni database. 10. To enhance upgrade the resources of Laboratory facilities for creating Advanced Research Environment. 11. Usage of e-Resources in all faculties and departments. 12. Maharana Pratap Govt. P.G. College plans to strengthen its human resource by organizing regular training programs and capacity building workshops for both teaching non-teaching staff members. 13. To explore the possibilities of utilizing renewable energy sources. 14. To Organize State / National level Conferences. 15. To upgrade and digitize the library in order to provide better facilities and access to resources including web-resources. 16. To set-up an ereading room so that students and teachers may access digital content. 17. To provide Online classes during Covid-19 to the students.
