

# International Understanding and Globalization

# Concept of international understanding.

International understanding is a feeling that the individual is not only member of his state , but the a citizen of the world. It means a sense of co exitence and mutual cordial relation among all nations.

# • Need of International Understanding.

- [1] To ensure co existence of nations.
- [2] To abolish wars.
- [3] to meet physical needs.
- [4] For international trade.
- [5] For the development of backward nations.
- [6] For the welfare of whole human being.

# Obstacles in the development of International Understanding.

- [1] Narrow nationalism
- [2] Various political thought streams.
- [3] various national groups.
- [4] Cultural diversities of nations

# Development of International Understanding.

- The need international understanding considered long ago. American president Mr Taft in 1912 called a confrence to avoid imminese of first world war ,but he failed. Internationalism was more after second world war. The U. N. O. was established for this purpose. U. N. O. works for co existence, cooperation, non interference in internal matters, and policy of non aggression among the member nations .

# Education and international understanding.

- Education is the main tool for development
- By education we can prevent the narrow nationalism. And
- To develop the international understanding.

# Measures to develop internationalism.

- [1] To making one objective of education.
- [2] Modification in curriculum.
- [3] modification in teaching methods.
- [4] modifications text books.
- [5] to celebrate international days.
